MOBILE APP DEV

TECHNICAL SKILLS

Front-End: (Proficient from far left to least) React Native, Flutter, HTML, CSS
Languages: (Proficient from far left to least) JavaScript, Dart, MySQL, Java,

EXPERIENCE

Flutter Developer | February 2021 – July 2021 | Atom tech

- I decided to take my experience to a start-up company where I would learn and contribute fresh ideas. Here, I am tasked with Designing, coding, and maintaining highly scalable apps using Flutter.
- I translated and built the designs and Wireframes into high quality responsive UI code.

IT intern | May 2020 – August 2020 | EbbyTek Services

- With limited software development experience in the work sector, I came into this role to learn on my feet. After learning HTML front-end development, I was able to reinforce the knowledge by collaboratively working in my role of building web-based apps to integrate.

Graduate Assistant | August 2022 – present| Towson University

- In this role, I am tasked with assisting the teacher I am assigned to with the marking of scripts and the teaching and guiding of both undergrad and graduate students in class through lectures and out of class when necessary.

Music Director | May 2017 – January 2020| American University of Nigeria (creativity club)

- I was responsible for coordination and overall decision making in relation to music performances

Volunteer and leadership positions Community service | September 2016 – September 2018 | American University of Nigeria

- Found different initiatives to give back to community; for instance; helped renovate a public school in the area. This included painting, cleaning, and refurbishing various classes.

EDUCATION

MS. in Applied Information Technology current GPA (3.33) | August 2021 - present

Towson University, MD
Towson, 21204

B.Sc. in Software Engineering | August 2016 – January 2021

American University of Nigeria, Adamawa
Yola.
